

TEAM 3667 - MECANUM KNIGHTS

JOB TITLE:

HISTORIAN - ENGINEERING NOTEBOOK

GENERAL DESCRIPTION:

Success looks like getting awards and having each page filled with wonderful words. As a designer of the Engineering Notebook the Historian is documenting how the team functioned through the season (off and build times). Responsibilities include: evidence of the engineering process is use, documenting the team raised funds to compete; showing team accomplishments as well as how we had fun while learning along the way.

The Historian must have a creative soul, the ability to be passionate, articulate, artistic and colorful.

KEY SKILLS :

- Creativity
- Artistic
- Well-written
- Detailed
- Good with Photography
- Ability to use computer design software a plus

DETAILED JOB DESCRIPTION:

- Update the Engineering Notebook
- Create a notebook template
- Design the notebook to reflect the team's image using your creative flair
- Add informative information through words, pictures, diagrams and schematics
- Enhance each section of the notebook
- Verify all information is correct and current
- Illustrate all the progress accomplishments, and successes of Team 3667 in a creative and innovate manner
- Ensure the notebook encompasses all aspects of the Team 3667

The purpose of the Engineering Notebook is to introduce the reader to our team, its members and the journey taken during the season.
